

LinenMe

Your story
told in linen

Introducing LinenMe

My name is Inga Lukauskiene, and I am a Lithuanian- born interior designer. I have a real passion for textiles, particularly linen. I love absolutely everything about it: its strength, texture and durability; the way it ages beautifully; and - I have to admit - even its natural crumples.

Over past centuries, in many cultures worldwide, one of the most important heirlooms a loving mother could give to her daughter on her wedding day was linen passed down from previous generations. Now, linen has become a key must-have for stylish homes with a pared back aesthetic and a focus on quality.

Lithuania, and my family, have strong traditions of flax growing and linen production, and I have always felt that more could be done to represent the beauty of Lithuanian linen and fine craftsmanship. With this idea in mind, I graduated from London's KLC School of Design, and decided to focus on creating beautiful home accessories from linen. LinenMe is the result.

I am excited to introduce you to LinenMe, the brand you can trust for one of the widest ranges of simple, sustainable and stunning linen homewares. I hope you enjoy exploring our edit of home textiles and clothes.

Yours,

A handwritten signature in black ink that reads "Inga".

What's Our Story?

LinenMe is a small yet rapidly growing business. We design, manufacture and deliver probably the widest range of linen home textiles to more than sixty countries around the world. Our aim is to ensure that each and every item we carry in our collection, or make specially for you, is simple, sustainable and stunning. We can help you offer your customers high quality, beautiful homewares that are designed to last and to enhance any interior.

EXTENSIVE COLLECTION

We offer a wide ranging yet carefully curated collection. We are proud to offer customers high quality textiles for every room and every season. Driven by an understanding of how our customers live, we have created an ever-expanding edit of beautiful products in a range that would be hard to find elsewhere.

SUSTAINABILITY

At LinenMe we are committed to ensuring our products are sustainably produced. Linen itself is an environmentally-friendly fabric as it requires fewer resources to grow and process, and is biodegradable. We use every last inch of fabric in our production process to minimise waste, and we craft products that are made to last, in keeping with our slow-living aesthetic.

UNDERSTATED LUXURY

All our product designs are inspired by what our customers need and are meticulously developed by myself. My family has worked in the flax industry for two generations, and I bring a wealth of knowledge and expertise to my designs. I know how to make linen look and perform its best. This kind of personal approach offers our clients the individual attention to detail of a bespoke luxury brand, without the price tag. We are simply great at what we do.

CRAFTED TO LAST

We have our own manufacturing unit in Lithuania, with more than forty years of linen production experience. Using raw linen materials grown in Baltic region and Europe we can ensure product authenticity and high quality. From a stock of over 1000 different linen fabrics we craft all your items to order using a combination of traditional and cutting-edge technologies. We understand linen - how it cuts, how it sews and how to bring out the best in each piece of fabric. Every product has a bespoke feel, and is hand-checked to make sure it meets the highest quality standards.

LinenUs

At LinenMe we work hard to be an environmentally friendly business: we use only green energy in our production process and we rework leftover fabric into linen tote bags. We don't believe in fast fashion, and we create textiles and homewares that are designed to look and feel amazing for years.

To further our commitment to sustainability, we are proud to launch our new LinenUs collection of homeware basics made from linen offcuts and unused scrap material. This range aims to further reduce our carbon footprint and achieve a zero-waste target for newly manufactured products. We are also offering our customers a complementary linen shopping bag if they choose plastic-free wrapping for their products.

Linen as a sustainable material

At LinenMe we are committed to ensuring our products are sustainably produced. Linen itself is an environmentally-friendly fabric as it requires fewer resources to grow and process, and is biodegradable. We use every last inch of fabric in our production process to minimise waste, and we craft products that are made to last, in keeping with our slow-living aesthetic.

Made-to-order production

We don't follow fashion fads – we design clothes that are classic and enduringly stylish, rather than pandering to the latest trend. We love fashion and are always creating new designs and researching the best silhouettes and cuts, but we won't produce anything that we know won't stand the test of time. Buy a linen dress from us now and it will look just as fabulous next summer, and the summer after it.

Zero waste

At LinenMe our philosophy is based on creating beautiful linen homewares with a minimal impact on the planet. By reusing offcuts of larger pieces of fabric we reduce waste, and we combine traditional hand looms with modern production techniques to work efficiently.

Certifications

At LinenMe we're a three-generation family business recognized for our great quality products and excellent designs. We hold three different certifications: European Flax ® trademark, Woolmark, OEKO-TEX. So you can be sure your product meets high standards and will have a long life.

Caring for your linen product

Proper care can ensure your linen product has a long, beautiful life. This not only saves you money, it also reduces waste and preserves resources.

Mindful shopping

There has been a gradual and welcome shift away from thoughtless consumption and towards living more consciously and with integrity. We want to surround ourselves and our families with quality products that will last a long time, and that are sustainably produced. We want to embrace slow living in whatever form is manageable for our lifestyles. And we want our homes to be organised, welcoming and uncluttered. None of this, of course, necessarily involves buying more stuff. But we also want to experience the luxurious comfort of new linen bedlinen, to replace tatty cushions with ones we can be proud to plump and to make little changes that nod to current trends and looks.

Packing

We use cardboard boxes and envelopes in our packaging – cardboard is a more sustainable material that's renewable, reusable and recyclable. Our courier bags are made from 80% recycled film. We pack your purchases in linen bags made from fabric remnants to reduce waste. These pretty bags come in different colours and can be reused in a variety of ways around your home.

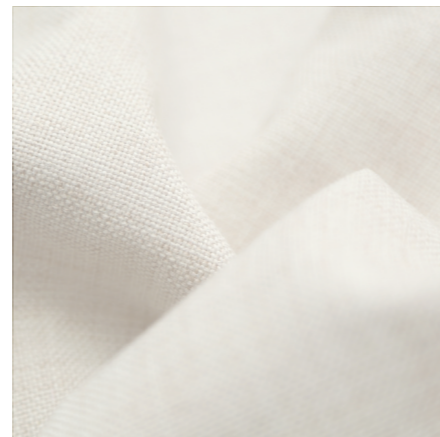

Shipping

Our couriers – FedEx, UPS and DPD – are trying to be more sustainable by choosing optimal routes, investing in research into green initiatives, converting their fleets to electric vehicles and investing in, or using, renewable energy. You can make a difference too by accepting your package on the first delivery attempt or using pick-up points.

Bed Linen Stone Washed

Discover the exquisite beauty of fine Lithuanian linen, full of sensual texture and style. The coolness of the fabric, soft touch & absorbency makes this fabric ideal for sleeping. Stone Washed collection is dedicated for royal sleep. Stone washed linen fabric is easy care – it can be machine washed, tumble dried without a fear of shrinkage, it has soft natural crumples that add some chic look and therefore needs no ironing. 100% linen fabric density 165 g/m². Duvet covers finished with buttons, pillow case finished as 'envelope'.

Linen Curtains Garza

The Garza curtain with rod pocket is a super-light curtain with a delightfully sheer quality. Due to the lightweight nature of the fabric (85 gr/m²), light is able to filter through, creating a soft, welcoming look. It is simple to care for too, being machine washable and happy to be tumble dried. This is a gorgeous, gently draping curtain that will be the perfect finish for any room.

Linens Cushion Covers Stone Washed

A delicate yet practical addition to any sofa or bed, the Stone washed cushion cover is your go-to for a stylish accessory. Whether you like your cushions the same colour or love to mix things up, we have a range of more than 20 shades for you to choose from, and we can make the cushion to fit any size filling. The cushion is made with back flap closure which keeps the insert neatly tucked inside the cushion. A tiny 1cm edging gives shape and structure to the soft fabric. Not only is the cushion gorgeous to look at, it is also brilliantly simple to care for. It can be machine washed and dried in a drier at low temperatures. No ironing needed – the true beauty of this linen fabric is in its natural crumples. Fabric density is 165 g/m².

Linens Curtains & Cushion Covers Throws Rustico

Our Rustico Home Accessories collection includes curtains, throws and cushion covers. Collection is crafted from soft, prewashed linen and bring a natural charm to any interior. This range comes in five muted yarn-dyed colorways that work perfectly in a minimalist home or as a calming addition to a bright room. Rustico curtains feature a tie-top finish. The cushions in this range are made with a narrow hemmed edge and button closure, while the throws are finished with tactile dual-toned fringing. Perfect for snuggling up and creating a welcoming, warm home, the Rustico collection is also machine washable and can be tumble dried for easy, no-fuss care. Fabric density is 185 g / m².

Beach Towels & Bags Stripes

Our fabulous new range of linen beach towels will fly to the top of your holiday essentials list. Crafted from pure, highest quality linen these towels are super absorbent and quick to dry. They are lightweight and not much bigger than your beach book or magazine. They are also sand-resistant, meaning you don't end up with a bag full of beach at the end of your day. Large enough to drape over a sun lounger, elegant enough to wear as a sarong, our beach towels get better with age, softening with each use. Finished with plain seam. Fabric density from 280 g/m² to 300 g/m².
